Hosted by **Chia Suan Chong**, this webinar will illustrate what a growth mindset is and how it is different from a fixed one. Perhaps you talk to your students about having a growth mindset but do you apply it to your own continuing professional development? Or perhaps you run a staffroom full of teachers with fixed mindsets and you don't know where to start making a change. In this webinar, Chia will consider the benefits of a growth mindset and how we can try and apply it to ourselves and the teachers around us, because growth mindsets are not only for students but for teachers too.

Chia Suan Chong is a teacher trainer based in York, an intercultural skills trainer, and a materials writer.
